To whom it may concern:

Re: Permission to use SISRI-24

This letter is to certify that the Spiritual Intelligence Self-Report Inventory (SISRI-24), as published in King and DeCicco (2009), is free for unlimited use by students, researchers, and practitioners, so long as the scale is referenced properly (see below) and not altered in any way, shape, or form without the authors' permission. Translation into other languages is also permitted, although some caution and care are suggested given the wording of the scale (e.g., the word consciousness can be translated in different ways that can possess meaning which is unintended by the authors).

APA reference: King, D. B., & DeCicco, T. L. (2009). A viable model and self-report measure of spiritual intelligence. *The International Journal of Transpersonal Studies*, 28, 68-85.

All the best in your endeavor,

A handwritten signature in black ink, appearing to read 'David King'.

David King, PhD

Sessional Instructor, Department of Psychology  
Researcher, Centre for Health and Coping Studies  
University of British Columbia
